

SERVICE PROJECT KIT PROGRAM

IN-KIND GIFTS AND COMMUNITY SERVICE PROJECTS: Some of the greatest support for Advocate Children's Hospital comes from community members and groups who volunteer their time and resources outside the hospital to complete projects that benefit our patients and families. The Service Project Kit Program is a great opportunity for schools, corporations, clubs, neighborhoods, sports teams or faith-based groups to volunteer. These guidelines are suggestions for group or community projects that benefit the patients and families at Advocate Children's Hospital in Park Ridge and Oak Lawn.
